

Hearing Aid Management Skills for Families of Young Children Who are Deaf and Hard of Hearing

This video presents information that will help family members of deaf and hard of hearing infants and young children learn some basic hearing aid management skills. Parent advisors describe: the anatomy of the ear, tests given to check levels of hearing, audiograms, functions of the hearing aid, fitting the aid, a daily listening check for the device, establishing full-time usage, care for the aid, and troubleshooting the hearing aid focusing primarily on the problem of acoustic feedback.
