

Get Real! : A Real Look at Interpreting

Has the interpreting world ever driven you nuts? Have you ever been frustrated with the people, the job, the life we lead as sign language interpreters? Have you ever felt like you were the only interpreter who has made mistakes? Join Samantha as she explores the field of interpreting and analyzes the positive and negative choices she and others have made along the way. This book is a raw look at what happens inside the hearts and minds of interpreters, and a crazy look at what can happen on the job. It challenges members of our field to break many of the cycles which have entangled us, and offers some reminders of truths many interpreters have forgotten. Get REAL! is sarcastic, comedic, and thought provoking, and if you let it, it will grow and challenge you to be the best interpreter you can be.
