Description Of Services:

Berns Therapy Solutions provides speech-language therapy for children from preschool through high school. We specialize in evaluating and treating communication difficulties related to speech, language, literacy, and social skills. Therapy sessions are individually tailored to meet the needs of each child.

Parents receive monthly therapy updates detailing objectives for therapy sessions, their child's progress, and how to promote carryover of skills at home. With parent permission, therapy updates can be shared with your child's teacher to promote carryover of skills at school.

During the school year, our speech-language pathologists are available to travel to many area private schools without incurring any additional travel fees. We also offer complimentary speech-language screenings.

If you are concerned about your child's communication, give us a call at (615) 200-8289 or send us a message .

We would love to start working with your little one! Our therapists specialize in spoken language and reading/writing skills and have experience working with children with hearing loss. We offer flexible appointment times, including during or after school, and multiple locations to fit your schedule. Contact us through our website or by phone if you would like to learn more about our services!
