SE DeafBlind Webinar Series
Tuesdays and Thursdays
(ASL Interpreting, Captioning & Spanish Interpreting Provided)
Sponsored by the Southeast State DeafBlind Projects

TIME: 1:30PM CST; 2:30PM EST

The auditory functioning of students who are DeafBlind and have multiple disabilities can often be difficult for IEP teams to determine. These students sometimes demonstrate the ability or inability to use their hearing in certain environments that seem inconsistent with the results of audiometric testing. To help teams provide data on how students use their hearing in a variety of settings and for a variety of activities, the Texas School for the Blind and Visually Impaired (TSBVI) has developed the Informal Functional Hearing Evaluation (IFHE). This presentation provides a short description of the components of the IFHE and how this tool can be used for the collection of data that can be incorporated into IEP documentation.

PRESENTERS: Adam Graves and Chris Montgomery

Please Register by NOON EASTERN day of Presentation
