

# HOME FIRE SAFETY WORKSHOP

November 13, 2015

5:00 pm - 7:00 pm

**Communication Center for the  
Deaf & Hard of Hearing  
2243 Eddie Williams Road, Suite B  
Johnson City, TN 37604**

Hearing the sound of a smoke alarm can save lives during a fire, but for those in the deaf & hard of hearing community, it's important to take a few extra steps for safety.

The Tennessee State Fire Marshal's Office & Johnson City Fire Department will be presenting safety tips at this free workshop. Free smoke alarms with bed shakers will be available to the first Tennessee residents with hearing loss that pre-register.
