

# Home Fire Safety Workshop

August 15–1pm to 3pm

JCIL

1981 Hollywood Dr  
Jackson, TN

Hearing the sound of a smoke alarm can save lives during a fire emergency, but for those in the deaf and hard of hearing community, it's important to take a few extra steps to insure safety.

The Tennessee State Fire Marshal's Office and the Jackson Fire Department will be presenting safety tips at this free workshop.

Free smoke alarms with flashing lights and bed shakers will be available to the first 150 households that pre-register.
